Skills

Languages: C/C++, JavaScript, Python, TypeScript

Technologies & Tools: React.js, Next.js, React Native, Expo, Node.js, Express, MongoDB, PostgreSQL, Firebase Firestore, Stripe, Socket.io, TailwindCSS, Bootstrap

Work Experience

MetaTalent.ai 🌐, United Kingdom

Dec 2024 – Feb 2026

Full Stack Developer

- Refactored and optimized production codebases across multiple platforms, improving maintainability, scalability, and performance.
- Designed and implemented REST APIs using Node.js and Express while contributing to modern React and Next.js frontend development.
- Integrated AWS S3 for secure file storage, Redis for caching, and Socket.io for real-time application features.
- Collaborated within Docker-based development environments and gained exposure to GitLab CI/CD pipelines and AWS EC2 deployment workflows by working alongside the DevOps team.
- Technologies used: React, Next.js, Node.js, Express, MongoDB, Redis, AWS S3, Socket.io, Docker, GitLab CI/CD, AWS EC2, TailwindCSS.

Causeway 🌐, Malaysia

Aug 2024 – Nov 2024

Full Stack Developer

- Developed responsive interfaces for a Malaysian mobility platform by translating Figma designs into production-ready React applications.
- Integrated backend APIs to synchronize application data with external HQ systems and collaborated across the MERN stack to deliver new features.
- Contributed to improving application performance and overall user experience.
- Technologies used: React, Next.js, Node.js, Express, MongoDB, TailwindCSS, shadcn/ui.

Matchmaker GME 🌐, United States

Aug 2023 – Jul 2024

Full Stack Developer

- Developed the Matchmaker web platform and ScrubHub mobile application from Figma designs, delivering responsive web and cross-platform user experiences.
- Built scalable REST APIs using Node.js and Express and integrated a Groq-powered AI assistant to provide contextual medical learning support.
- Implemented Stripe for website subscriptions, Apple App Store and Google Play in-app subscriptions, and one-time payments with centralized subscription management.
- Technologies used: React, React Native, Expo, Node.js, Express, MongoDB, Groq, Stripe, TailwindCSS.

Education

NED University of Engineering and Technology, Karachi

Oct 2022 – Jun 2026

B.S. in Computer Science and Information Technology

(CGPA: 3.574)

Relevant Coursework: Programming Fundamentals (PF), Object Oriented Programming (OOP), Data Structures and Algorithms (DSA), Database Management Systems (DBMS), Design and Analysis of Algorithms (DAA), Artificial Intelligence Expert Systems (AIES), Computer Communication and Networks (CCN)

Project Work

- **CollabriAI (2026)** 🌐: An agentic, AI-powered platform designed to enhance software development collaboration via smart planning and automation. Engineered generative AI features using Groq and LangChain to facilitate seamless development workflows. (React, Node.js, Express, MongoDB, Groq, LangChain)
- **FinConnect (2025)** 🌐: Winning project at WebCode, NED University. A full-stack subscription-based platform utilizing role-based access and privilege control. Led the entire development in a 48-hour hackathon. (React, Node.js, Express, Stripe, MongoDB, TailwindCSS)
- **Meeting Summarizer (2025)**: Built with Next.js, this tool allows users to schedule meetings, while hosts receive AI-generated summaries post-meeting via OpenAI's Whisper. (Next.js, Streamio, Clerk, Google Auth, OpenAI, Whisper)

Awards and Certificates

- **Winner – WebKode, NED University:** Led the team and built a full-stack platform during a 48-hour competition.
- **2nd Runner-up – Koderz Kombat, NED University:** Led the team and solved algorithmic problems across two competitive rounds.
- **MERN Stack Development Course – SMIT:** Trained in MongoDB, Express, React, and Node.js at Saylani Mass IT Training Program.
- **UI/UX Design Course – Jawan Pakistan:** Trained in modern design tools including Figma and Adobe XD.
